MARIA JORDAN

The Island of Ibiza is truly an incredible piece of Heaven. I have visited Ibiza for the past two years and have fallen in love with the authentic Spanish culture, the turquoise clear waters and the electrifying atmosphere at night. I decided to write about my perception of Ibiza and share this with the world. I discovered the true essence of the Island and was fascinated to explore the tradition dating back to 14th Century. When I first visited Ibiza Town, I soaked up the atmosphere and of course I made time to enjoy the sounds of world class DJs - read my reviews of the 2012 closing parties., starting from page 42. What was supposed to be a small blog post reviewing Ibiza has become a magazine, as there is just too much to share with you.

The locals have built this beautiful Island to international excellence and we are here to guide you through every step, by providing tips, recommendations and reviews.

What would you do if I told you that you could experience the energy of Ibiza from the comfort of your living room? It's better than a blowjob; in fact it's better than an orgasm! The Boudoir Club Playlist "Home of Deep House" flies you to the middle of the stage, gives you the drug to make your blood boil, has it's way with your body and then after an hour of stimulating sex, sorry I mean dancing, leaves you wanting more! When was the last time music made you feel so good? StarRockers have exclusively collaborated not one but two playlists to get you into the Ibiza spirit! Download Inside Ibiza 2013 on page 41 and The Boudoir Club playlists on page 67 for free ! You're welcome!

Get to know the Island

The island is situated to the east of the Iberian mainland in the Mediterranean Sea and forms part of the Autonomous Province of the Balearic Islands. Its administrative organisation comprises five municipalities: Ibiza Town, which is the capital; other cities such as Santa Eulària des Riu, Sant Antoni de

Portmany, Sant Josep de Sa Talaia and Sant Joan de Labritja. These cities offer the visitors experiences that are different and complementary at the same time. On the island, you will be able to enjoy spectacular sunsets over the Mediterranean, bathe in crystal-clear waters or just relax, regenerate and revive! The

acropolis of Dalt Vila is full of narrow streets and monuments such as the castle or the cathedral. It has been a crossroads for different cultures for hundreds of years. Nowadays the surroundings of the fortress are the stage for concerts, poetry events, exhibitions and cultural activities throughout the year.

What to do in Ibiza

Whether you are staying for a few days or even weeks, there is so much to see and do in Ibiza. Read about it on page 22.

Where to go

There are so many towns and cities to visit and explore in Ibiza. This is your guide to the island, fall in love with whatever suits your needs and just go!

Ibiza Town (Eivissa)

The capital is located in the Municipality of Ibiza Town (Eivissa). Its fortification, declared a World Heritage Site and is full of narrow streets and monuments such as the Castle and the Cathedral. Visit Dalt Vila's historic centre, which has been transformed into an outdoor museum. It's a great place to meet for late night walking tours.

Sant Antoni

Sant Antoni is one of the most popular resorts amongst the European tourists on account of its stunning Bay and the spectacular sunsets on the Ses Variades coast line. Nowadays, Sant Antoni offers a wide range of hotels, hostels and apartments: along with a range of other services. This resort is highly recommended by all tourists that have visited it.

Sant Joan de Labritja

Sant Joan's main features include vast woodlands and remarkable rural extensions, where the livelihood largely depends on farming. The coastline is home to many cliffs some of which are surrounded by picturesque coves, such as Es Caló des Multons, Cala Xarraca and Es Caló. Sant Joan is perfect for couples and families looking to get away from the buzz and just enjoy the surroundings.

Sant Josep de sa Talaia

Located in the South, Sant Josep is the largest municipality on the island. It shares its coastline with Platja d'en Bossa which is located on the east side and Sant Antoni's Bay on the west. Close by to this town are opportunities to join in with the Ibiza party scene or escape and indulge in utter relaxation. Platja d'en Bossa hosts some of Ibiza's biggest DJ events.

Santa Eulària

Santa Eulària is the second most populated town on the island after Eivissa. It offers a wide range of beaches, lovely towns, solitary fields and little markets, attracting thousands of tourists every season. Visit Santa Euràlia for memorable golf course games. Hire a boat and go deep into the ocean to experience the warmth of the sun and bathe on the beautiful beaches.

CAR HIRE CHAUFFEUR

ACCESS IBIZA Cars provides a tailor made package to suit your individual budget and requirements. Our competitive rates make our cars an affordable way to experience Ibiza in comfort and style. From airport transfers, private events, budget car hire, chauffeur service, a spot of club hopping or a complete 24 hour on-call service we cater for your transportation requirements, 24 hours a day, seven days a week.

The most rural Ibiza

Hidden treasures

Pitch perfect

Are you a nature-loving traveller wanting to explore the outskirts of Ibiza?

In the village of Sant Joan, the two most emblematic buildings are the small Casa Consistorial, the home of the town council and the church. The community is made up of four parishes: Sant Joan, Sant Miquel, Sant Vicent and Sant Llorenç. They

are small villages in which local neighbours live side by side with people who have arrived from all over the world wanting to seek peace and quiet in the most rural depths of Ibiza.

It is the area of the island with the lowest number of inhabitants and it stands out because it offers the wildest natural landscapes, with

spectacular cliffs that have been declared as a Natural Area of Special Interest, since both flora and fauna of great value live side by side in its ecosystems. It has always been an area famed for its great number of springs, for the quality of its honey and for the fertility of its land, which is tinted with an intense rust red colour.

Sites of special interest to tourists

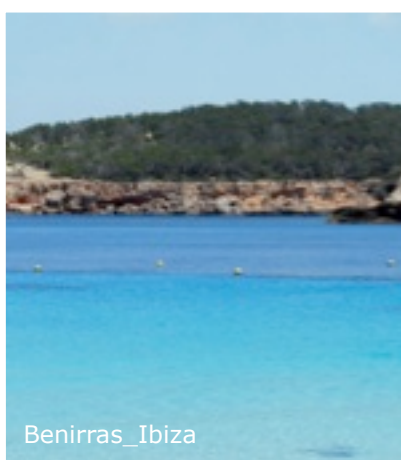

Ibiza Travel

Sant Miquel de Balansat: You will be able to find all kinds of attractions all the way along its main street throughout all seasons of the year. A must-see attraction is the church built on a hill. The port of Sant Miquel de Balansat is one of the most important tourist spots enclosed in Sant Joan's traditional architecture, with hotels, restaurants in where you'll be able to sample the fresh fish of the island or visit shops and leisure facilities.

What to see: Beaches & Cliffs

Cala Bassa_Ibiza

Benirras_Ibiza

Agua Blancas_ibiza

Taste of paradise

Agua Blancas

Appreciate the beautiful scenery of Sant Carles, Ibiza.

The rugged cliffs and clear shallow waters are the perfect pick for those who love to swim. Due to the small size of the beach, expect to see a few nudists.

Benirras

Benirras is located in Sant Joan (one of Ibiza's most adored

towns). The bay is calm and collective, surrounded by hills, recommended for tourists who enjoy snorkelling.

Cala Bassa

Cala Bassa offers breathtaking views of the infamous promontory of Cap Nono and San Antonia. Stroll down the striking white sandy beach and along the shady pine forest offering you a sheltered break, away from the warmth rises of the sun.

Formentera

Looking for a Caribbean beach type holiday without the enormous price tag? Formentera offers the best of both worlds, it's only a 30 minutes boat journey from Ibiza Town to the small Formentera island. The beach scenery is simply to die for. Dip into the clear blue waters and enjoy the exotic cocktails.

Art and Culture

[B12 The Gallery](#) is the ideal multipurpose backdrop for exhibitions, workshops, special events, fashion shows, photo shoots and more, bringing a touch of some much welcomed modernity to Ibiza's arts and events scene.

Sightseeing

[Hippy Market](#)

Enjoy a shopping experience like no other at Ibiza's must see attraction. Las Dalias "Hippy" Market takes place every Saturday with thousands of people coming to visit it, particularly between 1st May and 31st October. At this

market you will find a whole world of Adlib clothing, costume jewellery, sandalwood, exotic musical instruments, ethnic music CDs, jewellery, decorative fabrics, little figures, Hindu antiques, wrap-around pareus, books and much more. In the market area there is also a restaurant and some cafes where you will be able to taste freshly squeezed juices or Arab cakes. Or, why not take a trip to see the Las Salinas Salt Flats, which have been used for over 2000 years. Take a bottle of champagne and enjoy the spectacular sunset, setting over the pure sparkling layers of salt left at the bottom of the lakes.

Boat Charter

Hiring a Boat is the perfect solution to get away from the overcrowded beaches and we recommend – [Ibiza Access](#). You might spot a few DJs in the ocean, doing just that.

Relax, Refocus, Regenerate

With many excellent spa centres around Ibiza, it would be a shame to leave without paying a visit. To ensure you pick the one most suitable for you, visit [Ibiza Access](#) who will be able to assist your every need.

Swim in clear blue waters

Its crystal-clear waters and a spectacular coastline over 200km in length mean that Ibiza is a popular place to go diving. As such, there are a number of firms specialising both in diving courses carried out by professionals. There are also guided tours, which enable visitors to discover and learn about the sea life and discover the wonders under the deep clear waters. The seabeds in the National Park of Las Salinas with prairies of Posidonia are of great ecological

value and were given the status of World Heritage. If you are looking for a reviving diving experience we recommend the Don Pedro roll-on/roll-off boat. In the summer of 2007 the boat hit underwater rocks off the islet of 'Dado pequeno' near the Ibiza harbour. It ended up on the sea floor, up to 45 metres below the surface. It has since acquired a reputation as one of Europe's finest shipwrecks for divers.

Nicole Moudaber

If you want to discover the real Ibiza, keep on reading! DJ, Producer and label owner Nicole Moudabe uncovers the spiritual side to the Island and announces 2013 projects with the legendary Mr Carl Cox. Born in Ibadan in Nigeria, Nicole's inspiration came from the African drum beats and passion for music the locals carried. She later moved to London where she began a career in the clubbing industry as a promoter. She soon came to realise the gift she was given and began proceeding a new career as a music producer and DJ. Nicole has changed the sound of deep tech house and made it her own. One of Moudaber's biggest achievements to date is remixing Sian & Mladen Tomec's 'Front Pocket' on Octopus and her version of Carl Cox 'Chemistry' on Intec. The remix

scooped a prestigious IDMA award at Miami's Winter Music Conference, winning the title for 'Best Minimal/Techno Track'. A few have described her as the Queen of deep house tech sound because not only does Nicole's music uplifts you but it also brings you back to life. With a brand new album out this year and with the new launch of MOOD Records owned by Nicole, she is fiercely taking over the world.

Nicole calls Ibiza her second home and during our interview we find out what made her decide to purchase a house on the Island. We were surprised by what she had to say and thanks to Moudaber our perception of Ibiza has been altered slightly. Will she be back to Space for the fifth season? Well, you just have to flip over to the next page and find out.

**“..to me Ibiza is a woman”
Nicole Moudabe**

Inside Ibiza welcomes

Nicole Moudabe

You started your career in the club industry as a promoter in London, booking DJs. What inspired you to become a DJ yourself?

The music, I love music and I'm still passionate about it, now more than ever. It's a constant dialogue between the world and myself.

Ibiza is your second home, so you must know the island inside out. What would be the must see or do things for first time travellers? What would you recommend first time travellers must see and do?

You must see Ibiza from the sea. The island is very energetic; Es Vedra is the point where everyone should experience. The first time I saw it was from a house on a cliff, overlooking straight onto the magic rock. The next visit was on my boat, approaching Es Vedra for the first time, that was such a majestic experience to me. What was it like? I will never forget it, dark water, silence and lots of energies flowing. You're compelled to be humble by that rock.

So far the DJs line up has not been officially announced, nonetheless, where can you see yourself?

You can see me in Space Ibiza and a beach party I will be DJing at.

What can we expect from your new album?

It's a mixture of deep, tech and techno sound. I have tested every track so far with the crowd and a few DJs have it already, it's been damaging floors around the world. So far the tracks have received early support from Carl Cox, Richie Hawtin and Adam Beyer. I just finished putting the finishing touches on my collaboration with Adam Beyer, which will also be included on the album.

Recently, DJs have changed the music they produced in order to keep up with current trends, have you changed your style of music or are you sticking to techno and house?

My style is what I understand and know well, so I will stick to it. Whether it's house, techno, deep house or tech house only because I feel it. I can never do an electro house, trance, dubstep etc...it doesn't mean much to me I'm afraid.

You recently launched your new record label 'Mood Records' at Pacha NYC. What kind of artists are you

looking for? Is it a variety of music styles or are you mainly concentrating on finding techno and house talent?

Mood Records is a mixture of my music, collaborations with artists, new comers too. I will invite friends and people I admire to work with me. If I play it in a club, festival or at home then I will release it.

Carl Cox has played a huge part in the growth of your career. Can you tell us how you met and how the working relationship blossomed?

He supported my music on his radio shows at first, and then he invited me to open for him in London. It was an intimate gig for 500 people for the launch of his DVD. A few months later I was invited to play at Space in Ibiza for the summer and have been a regular guest since. We developed an amazing friendship along the way, we play together internationally as well, share music, talk about everything and nothing too. He's awesome.

Will you be joining Carl Cox's Revolution night at Space this year?

Yeah, you coming? **Of course, I'll be dancing the night away with your new singles!**

What made you decide to buy a house in Ibiza and why do you love the Island so much?

It reminded me about Lebanon a bit and when I looked at the guide books in Ibiza and I was surprised to find out it was discovered by The Phoenicians, and the Lebanese were the Phoenicians. I instantly felt the connection the Mediterranean feel it's unmistakable. Ibiza is a very spiritual island, peaceful and yet it can bite you as well - to me, Ibiza is a woman.

Thank you so much for taking part and we look forward to seeing you in Ibiza this year.

Many thanks to you, see you in the sun!

USHUAÏA IBIZA BEACH: THE HOTEL

NEW
The Ushuaïa
Tower opening
2013

Where music and comfort come together

Monday morning, we are sitting in the office and browsing through magazine pages of hotels in Ibiza. It's a light bulb moment when we came across [The Ushuaïa Ibiza beach hotel!](#)

This is it! This is what we have been searching for over five weeks!

The artistic layout and raw deco designed by La Maison De L'Elephant welcomes you into a world full of imagination.

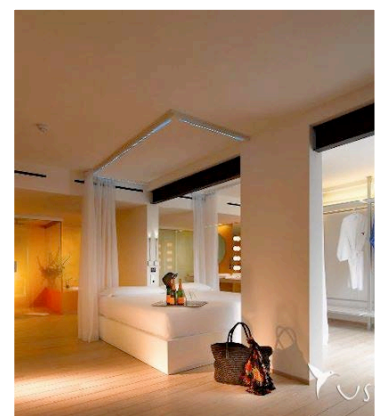

The delicious Japanese sushi and Minami restaurant got our taste buds buzzing and the flavour puts a new spin on Asian foods.

After four days of non-stop sightseeing, we checked into the Ushuaïa spa. They offer a range of spa treatments, so we tried the hot stones massage and the cocoa

and honey delights treatment. It was deliciously relaxing and enjoyable. The Wellness and Beauty Centre staff ensure the guests look magnificent during their stay. Perhaps, your thing is to lay by the beach and top up the tan before returning home, join the Ushuaïa experience and relax on the private beach with your personal waiter service.

Oh, and just when we thought we couldn't be any more spoilt for things to do, in the afternoon, Ushuaïa transforms into a pool party and welcomes international DJs on its stage. Guests can enjoy live sets and performances by the pool or from the comfort of their villa balcony.

Join us on page 44 as we rock up to Ushuaïa for the party of the season!

ARE YOU A GAMBLER?

Gamble your way into the Island's most lavish and renowned Casino Hotel – Say hello to **IBIZA GRAN HOTEL** - *Maria Jordan*

So we want to know if you are looking forward to a reviving experience? Are you ready for action? If so [Ibiza Gran Hotel](#) is just for you!

A short drive from the airport, [Ibiza Gran Hotel](#) is located near Ibiza Town and is a very short walk away from Pacha.

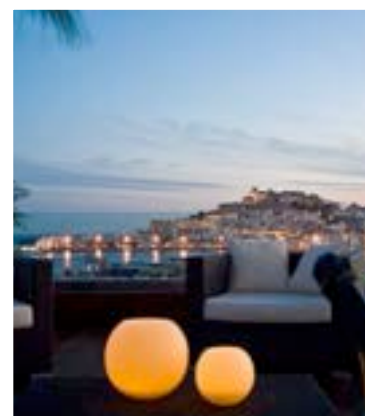

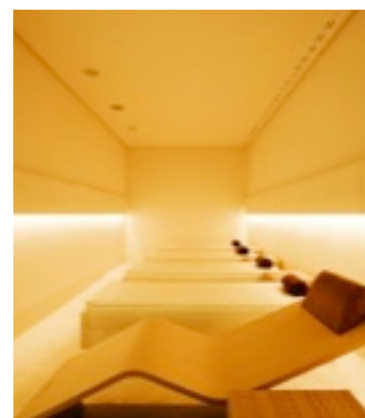

The classic layout and extravagant deco has the 'X factor'. This is a Las Vegas kind of a hotel and we were spoilt for choice. From the casino's game room, a new slot machine room, the Jackpot restaurant to the Casino Bar and of course, no gambling night can go down without a selection of sizzling cocktails.

If this is not your thing, perhaps winding down and losing track of time during a relaxing spa ritual ticks all the box.

In 2012, we stayed at the Grand Suite Vanity Fair and oh, did we fall in love! The top floor apartment guarantees breath-taking views of the Mediterranean and at night how about searching for the stars from the comfort of your bathtub?! Yes, this exquisite penthouse has no limits.

During our interview with R3HAB he picked [Ibiza Gran Hotel](#) as his favourite spot to stay when he is DJing on the Island.

We are certainly going back! Will you?

TOP FIVE CLUBS VOTED BY THE PUBLIC

During our visit to Platja de Bossa and to the outskirts of San Antoni, we spoke to YOU, the public, to find out which clubs you consider to be unmissable.

Maria Jordan

#INSIDEIBIZA2013

Inside Ibiza interviews DJs and Music Producers 'StarRockers'

How did you guys meet and decide to form StarRockers?

A mutual friend introduced us, and we sort of "clicked" straight away musically, starting to share ideas and making tracks together.

You have DJed all around the world, how would you describe the experience and atmosphere in Ibiza?

Ibiza always surprises us with something different, it's never the same. The atmosphere is electric, people go to Ibiza to party and really enjoy themselves. That's what counts.

One of my favourite tracks from your collaboration is "Feeling". You both said previously that the song is about a series of emotions and you have also included it in the Boudior Club playlist. Tell us a bit more about that?

Thank you very much. We're also very found of Feeling and we will be shortly releasing the full vocal version out on our label. The Boudoir Club playlist is something we have been working on for a while. The playlist is a collaboration of well known DJs working together to bring out an intimately sensual sound to Ibiza.

How would you describe your sound and production?

It's not an easy one because we have a lot of influences, and not just from the electronic music world. However the club scene is where we exist and belong, so a good way to describe our sound and production would be the combination of many different elements into a dance floor friendly format.

You recently launched StarRocker records and following the foot steps of many other DJs who have done the same. Why do you think DJs are starting to launch their own record companies and what kind of talent are you looking for to join the StarRocker empire?

Yes we have and are very excited about it. It's definitely something we have wanted to do for a long time and we're very much looking forward to grow our label. Many other DJs have done this before and it's really a good position to be in as it gives 'you' artistic freedom to release what you want, without too much commercial pressure. Another reason we have decided to do so is because we live in London, where talent is quite literally present at every street corner. Being in a position to help other artists to be known more, and help them get there is something we're very found of.

How is the Inside Ibiza Playlist different from the Boudoir Club mix you did our readers to download (free of charge)?

The Inside Ibiza playlist is a "main room" or "peak time" set, something we put together to take your breath away, make your feet move, your body shake and gradually taking you to an epic climax. The Boudoir Club Mix is not quite as "directed", but more of an invitation to let the mind imagine, wonder and to let go over a scenery of sensual grooves and sounds.

We just have to ask, when you are on the island where do you go? What are your favourite spots?

Ohhh, that's a tough one! We like to take a boat out to Formentera, the beach is great. Ushuaia is a must see and for a quick bite we love Ibiza Rocks Restaurant in Playa de Bossa.

You will be our official DJs for the Inside Ibiza parties we are having around the world, what else can we expect to see from StarRockers this year?

Yes that's right, and we're delighted and looking forward to it a lot! For the year ahead, we have lots of projects and plans, so without saying too much, it's probably best to say that you can expect a lot from us this year.

USHUAÏA IBIZA BEACH: THE CLUB

[Ushuaia Beach Hotel](#) has only been opened for two seasons and it has already made its way to the very top of the Ibiza Party scene.

“How is it possible for a hotel /club to beat the odds and retain the title from Ibiza's most iconic and worldwide known club – Pacha?”

Maria Jordan

Ushuaia offers a different concept to its guests; something as simple as a party by the pool has all of a sudden made everyone excited. Ushuaia prides itself as having the world's best DJs playing on the decks on its enormous stage and to make their point even bolder, they have created “The Hall of DJ's Fame” something only done on the Hollywood Boulevard.

During the 2012 season, tickets were sold out for Fat Boy Slim and David Guetta's F*** Me I'm Famous tour every Monday, Swedish House Mafia on Wednesdays, Luciano on Thursdays, Sasha on Fridays and NERVO every Monday from September.

Next season, Ushuaia promises even more expansion. The recent announcement of “[The Ushuaia Tower](#)” marks the next chapter - a majestic eight level tower located next door to the existing venue, which will form part of Ushuaia Ibiza Beach offering luxurious suites with spectacular sea views and an infinity pool. In line with the current concept, The Ushuaia Tower will offer an innovative minimalist design as well as state-of-the-art technology and unlimited access to all the events and services of Ushuaia Beach Hotel.

LUCIANO'S CLOSING PARTY AT USHUAÏA IBIZA BEACH HOTEL & CLUB

Editor's Review

I attended the Luciano's closing party at [Ushuaïa](#) on 27 September 2012. I could not contain my excitement after meeting Luciano at the DJ Awards two days before he was crowned the winner of Best party/parties of the year with ENTER and Cadenza Vagabundos.

The event started at 17:00 with a pre pool party along with cocktails and relaxing tempo beat music. To our surprise DJ Solomum, winner of 'Best Producer' at the respected Ibiza DJ Awards 2012 stepped on stage and played a flawless set, setting the guests up for a memorable night ahead. Later on in the evening the official closing party kicked off with warm

up performances from Ushuaïa's three resident DJs; Raúl Rodríguez, Juan Ma, and Kike Radikal, followed by Onno and Uner, the latest recruits of Cadenza Records.

As the sun went down, Reboot from Cadenza Records stepped up behind the decks to pump up the crowds with his 'dynamite' deep tech house beats.

Just as we went back stage, Luciano came on the decks and everybody went wild.

Lost in transition is the perfect term to describe the atmosphere and music. The ambiance was simply indescribable and even

after mingling with the crowds, and hanging out in the VIP area, the passion Luciano bought during his set sent a pulse of shock waves into the crowd. Apart from the dazzling cocktails, the stunning surroundings and the world class DJ sets, the closing event also offered state-of-the-art pyrotechnics and awe-inspiring performances featuring acrobats, pole dancers and show girls along with as giant inflatable animals that wormed their way through the crowds of dancers in fantastical Ushuaïa style.

Ushuaïa are set to open the 2013 season with a daytime event on May 25, are you going?

EXCLUSIVE

AVICII CONFIRMS RESIDENCY AT USHUAIA FROM 30 JUNE 2013

Swedish superstar DJ Avicii will be taking up residency for the second time at Ushuaia Ibiza Beach Hotel every Sunday from 30th June until 1st September. The Swedish dance artist reached global status in 2010 with hit singles like Bromance and My Feelings For You, plus chart topping remixes of Tiësto, Robyn, David Guetta and Bob Sinclar. His first release of 2011, Street Dancer, went straight to number one on the worldwide Beatport charts, followed by huge success with Collide and Levels later that year, which

were huge hits in the industry. In spring 2012, Avicii released Silhouettes which peaked on the UK dance charts, and most recently, he reached a UK number one with his collaboration with Nicky Romero, I Could Be The One.

After last year's successful second summer season, including 100% occupancy in peak months and more than 80 unique daytime parties held next to Ibiza's hottest poolside stage, Ushuaia Ibiza Beach Hotel looks forward to another phenomenal summer season.

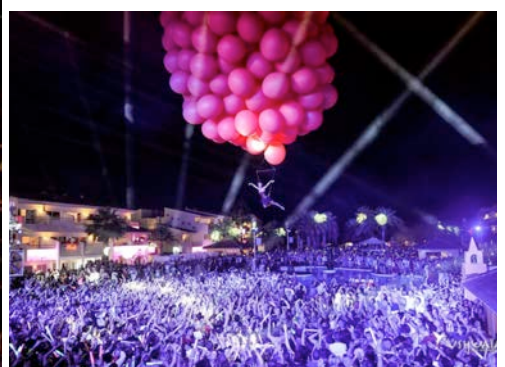

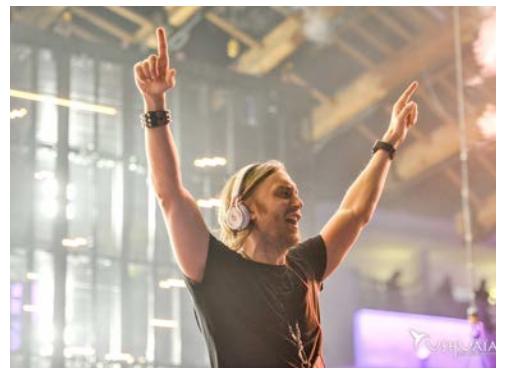

EXCLUSIVE

DAVID GUETTA IS BACK AT USHUAÏA FROM 1 JULY 2013

David Guetta will be returning with his F**K me I'm Famous by David and Cathy Guetta residency for the second consecutive year, kicking off his weekly sets on Monday 1st July for nine weeks. Renowned as one of the world's top house music producers and DJs, Guetta's FMIF sessions at [Ushuaïa Ibiza Beach Hotel](#) last year rapidly became one of the hottest daytime parties on the Ibiza circuit. His weekly set this summer will top off an exceptional twelve months for the French DJ / Producer, whose chart-topping single Titanium (featuring Sia) hit

one million sales in the UK in February. David now joins the small group of artists who have had not one but two million selling singles in the UK. David Guetta also co-wrote and produced the The Black Eyed Peas' I Gotta Feeling, which has also sold over a million copies. Both tracks are also featured in the Top 20 biggest selling downloads of all time. We advise you purchase your tickets online sooner rather than later to avoid disappointment. You can buy tickets when you get to Ibiza but expect higher costs.

F☆☆ME I'M IN IBIZA

Editor's Review

The question I have been asking myself is why do millions of people book trips to Ibiza every year? Is it the great music or the beautiful surroundings? I don't know about you but for me they both matter, that's why visiting [Pacha](#) was a must! I was lucky enough to attend three separate events during my trip! Tiesto's closing event on 24 September 2012 gave me my first insight to the wonders of Pacha. What a night! The theme was black and white (very Tiesto) and Pacha's resident DJ Graham Sahara was behind the decks pumping up the crowd. The warm up set was uplifting and energising, R3HAB's

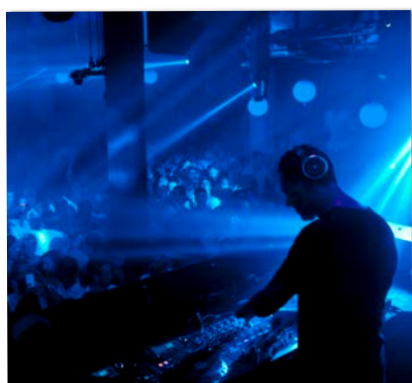

powerful DJ set followed straight after. He later introduced Tiesto to the stage and the crowd screamed with excitement. His appearance behind the decks showed exactly why he was voted 'The Greatest DJ of All Time' by Mixmag in 2011.

The second event at Pacha was the DJ awards and after party on Tuesday 25 September 2012. Yet another great event with another mind-blowing theme! Read more about the DJ Awards on page 64.

I couldn't leave Ibiza, without a sneak peek at David Guetta's F*** me I'm Famous Closing Party at Pacha. Cathy Guetta's tasteful and

elaborate design visions can be sensed throughout the venue. Free candy anyone? The romantic theme, the love swings, the erotic dancers and the carefully handpicked colour scheme lets you know you are in for an awesome night! On the decks we had David Guetta, Afrojack, Daddy's Groove & J.P Candela. Near to the end, David and Afrojack out staged each other by playing the newest house tunes back to back. The great teamwork definitely gave the crowd more than they bargained for.

It's a no brainer; you can't leave Ibiza without visiting Pacha!

Inside Ibiza interviews

R3HAB

Ahead of this year's season parties we want to find out what R3HAB has in store for the fans and his favourite spots on the island.

As a multi talented Dutch DJ and producer, R3HAB has become an international talent. His music and remixes have hit the dance floors around the world and we couldn't resist watching his DJ set at Pacha in 2012. R3HAB has worked with the likes of Lady Gaga, Bob Sinclar, Calvin Harris, Lil' Wayne and many, many more. 2013 looks very bright for R3HAB and with his new playlist on SoundCloud 'I Need R3HAB, something tells me this season will be his best one yet. Enjoy the interview!

You're renowned for your remixes; you take any song and make it your own. Would you say that you feel more at home remixing other people's songs or do you prefer making your own music?

I love doing both, although I have to say that making a remix is always difficult because it almost never gets any better than the original track, but when a remix is done and it is being appreciated, that's just a great feeling.

Which Ibiza clubs will you be DJing in this year?

That's still to be confirmed, but be sure I will have some special surprises for my fans.

You are always bringing out new material, can you give us an insight to the DJ collaborations you have coming up for the summer?

I have been working together with Jason Derulo, Flo-Rida, Akon and on an upcoming remix with Cher so all very exciting!

If you had to pick one unforgettable experience of Ibiza, what would it be?

I couldn't pick one, it is all one great experience to be on Ibiza! I love it, it's a great island

When you visit Ibiza, what is your favourite thing to do besides DJing?

When I have free time I like to rent a boat and visit some of the beautiful beaches around the island and hang out with friends.

When you are in Ibiza, where do you stay?

That depends on where I'll have gigs but probably at [Ibiza Gran Hotel](#).

We first saw you at Tiesto's closing party, your set was uplifting and we loved the remixing collaboration. Are you planning to join Tiesto at Pacha again this year and if so, what can we expect?

I don't know if Tiësto is playing again at Pacha but if he is and he would ask me you can expect a lot of Chainsaw madness!

Can you recommend three must see places in Ibiza?

OK, the first one is [Ushuaïa Beach Hotel](#), the second one has to be Cala Jondal beach and of course Restaurant B.

What can we look forward to from R3HAB this year?

I have a compilation album coming out on CR2 records, new R3HAB originals and lots of production work.

We can't wait, thanks R3HAB!

Thank you Maria and the Inside Ibiza Team!

LIO IBIZA

They say good things come to those who wait

Now, after almost two years of meticulous planning, restructuring and renovation, the venue formerly known as El Divino has opened its doors. Little remains of the once-prominent super club El Divino. The interior has been completely stripped out to accommodate an impressive restaurant and club under the new guise: 'Lio'. The brainchild of Pacha owner Ricardo Urgell, Lio is a remarkable new dining concept never before seen in Ibiza.

“We’ve renovated the whole building”

says Juanan Martinez of Pacha who, alongside Urgell and Francisco Ferrer, has helped drive the project to completion.

Situated in a prime spot in the Ibiza marina with idyllic views of Dalt Vila, Lio is primarily a restaurant and cabaret club of lavish proportions, with a visual and culinary feast of flamboyance and romantic live fantasy. On any of the two stages (one

inside, the other situated over a covered catwalk-length swimming pool overlooking the sea) expect an assortment of shows, with no single performance the same as the last. Burlesque performers, go-go girls and international artists have contributed

to the ostentatious affair, and when you’re not watching the spectacle on stage you’ll be entertained by the flaming theatrics of the open air kitchen. Serving international and Japanese fusion food.

Diners can watch specialist robata chefs, preparing poultry, fish, meat and vegetable cuisine from the comfort of their table.

The food is delicious, the atmosphere is very laid back, the performances are spectacular, the view is breathtaking, trying to find a negative but we don’t think we can.

Why not try something different this year? Visit Lio and enjoy the beautiful scenery with mind-blowing live performances and delicious choice of cuisine.

LIO...Where food of unimaginable yumminess made all of our dresses tight!”

Maria Jordan

“Only the outside walls belong to El Divino. Inside everything is completely new. Everything has changed.” Juanan Martinez

Inside Ibiza were invited to attend the 15th Edition of the annual [DJ Awards](#) held in Ibiza.

The first awards ceremony took place in 1998 organised by founder Jose Pascual (Ibiza's organiser Guru) and Lenny Kraru DJ/Producer & Record Label Owner. [The DJ Awards](#) have in their own right become known worldwide and have attracted international superstar talent.

During the press call and cocktail party at the [Ocean Drive Hotel](#), prior to the ceremony, we were given the opportunity to mingle with the nominees.

Later, the event moved to Pacha for the ceremony and after party. I was pleasantly surprised by the exceptional service and the acts on stage. The canapés were delicious and the champagne was sizzling. Pacha yet again out-shined with their extraordinary deco and theme for the evening, everything was tastefully done. The nominees were seated and we were ready to snap the winners and their acceptance speeches.

The ceremony was presented by the UK duo of Des Paul and Lucy Horobin. During this edition, nine special Awards were added and judged by an independent music panel and 10 categories voted by YOU – the public. The categories included House, Techno, Downtempo, Deep House, Dubstep/Bass (new) and Deep House a few to mention

During the ceremony we had the privilege to sit back and indulge in a live performance from Aimee Sophia, her sensational voice sent goose bumps around the audience.

Later, at the after party we were joined by the funky Hercules & Love Affair, for a sing-along gig until the early hours of the morning.

Some of the special awards winners included, Party Non Stop Pirupa who were voted as "Track of the season". Pacha Magazine won the title of the "best publication" yet again, Solomun was voted as the "best producer" for 2013 and Lenny Kravitz performances at Ibiza 123 won Ibiza Live Performance for 2012.

By Spanish law it is illegal to smoke in indoor public places i.e. bars, restaurants, airports, shopping centres. Smoking is also considered illegal outside hospitals, schools and children's play parks. Fines for breaking laws range from €30 to €600k and are being strictly enforced by the local authority. There are also strict controls on drinking and sexual activity in public places, including beaches, where regulations have increased significantly. Fines range from €30-€1,500.

Hotels have a legal duty to register the passport details of tourists when they check-in. A photocopy of your passport will be made and kept on file for safety measures. This is normal procedure across Ibiza Island and Spain and it's nothing to be concerned about.
